

Stressless® Emily V2

Available Modules:

- You will need 3.1" behind the sofa for the Stressless reclining function.
- Power operated headrests are standard on each Emily unit (except the Center/End modules). The Emily Corner has a power headrest on each side.
- Cannot operate Power seats on both sides of the Emily Corner simultaneously. The footrests will collide if you do.
- Emily Center Module can be placed between any two seating units. The Center Module, End Left Module and End Right Module cannot be setup as stand alone modules; they must be connected to a seat or corner. You cannot mount an armrest directly on the Corner unit or Center module.
- Emily End Modules can replace the armrest(s) on a sofa setup.
- All modules are delivered with 3.15" wood legs in black which are barely visible. The armrests have the visible legs, and all models come with more than one version of the armrest (upholstered, steel or wood; depending on the model).

Available in over 50 leather colors combined with 8 wood finish choices.
